

# Low Carbon District Energy Systems

BCIT School of Construction and the Environment Workshop

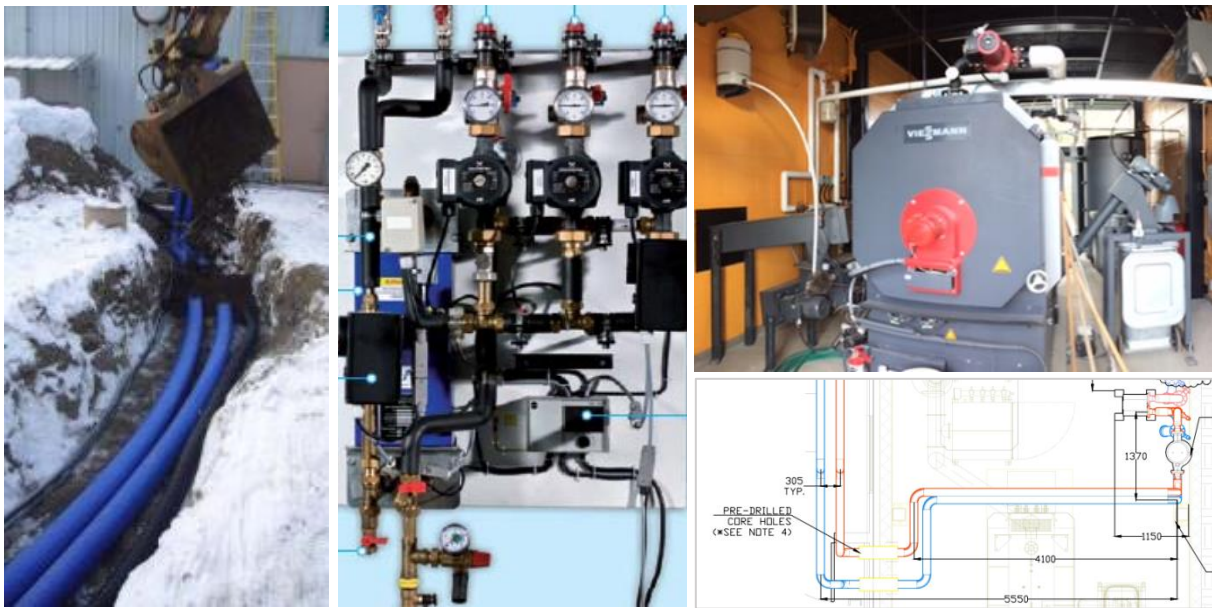

Thursday February 16th, 2017

9:00 am – 12:30 pm

Location: High Performance Building Lab

(BCIT Burnaby campus, building NW3)

Cost: Free of charge

Join us for a morning of learning from District Energy designers, operators and owners. Topics to be discussed include:

- District Energy 101
- Bioenergy as an Energy Source for District Energy Systems
- Expansion of District Energy System at SFU and U of Oklahoma
- Steam to Hot Water Conversion at UBC
- Modernization of the National Capital Area District Heating and Cooling
- Vancouver South East False Creek Neighbourhood Energy Utility

With the participation of:

- FVB Energy
- BC Bioenergy Network
- City of Vancouver
- UBC
- Corix Utilities

Please RSVP to Vanesa Alzate - [valzaterestrepo@bcit.ca](mailto:valzaterestrepo@bcit.ca)
