ODYSSEY

A CELEBRATION OF DISCOVERY & INNOVATION
MAY 4 TO 19, 2019

A Behind the Scenes Journey Through Science at Environment and Climate Change Canada

Save the date, May 9, 2019, for Pacific Environmental Science Centre's open lab event!

Are you looking for a unique experience? Are you eager to learn about the exciting work being done in Environment Climate Change Canada's science labs? Are you interested in pursuing a career in science and technology?

If your answer is yes, then this is the perfect event for you!

WHEN: May 9, 2019

TIME: 10:00 a.m. to 11:30 a.m. and 1:00 p.m. to 2:30 p.m.

WHERE: Pacific Environmental Science Centre
2645 Dollarton Hwy
North Vancouver, BC
V7H 1B1

The Pacific Environmental Science Centre laboratories provide scientific data for freshwater quality monitoring programs, the Shellfish Water Classification Program (SWCP), wildlife and environmental enforcement related investigations, and emerging priorities. The chemistry section of the laboratory specializes in environmental contaminants analysis, oil spills forensics and identification of unknown contaminants in the environment. The SWCP classifies the water for shellfish harvesting off the BC coast by undertaking water quality monitoring and sanitary surveys.

Visitors will be able to visit chemistry and biology labs as well as the freshwater and shellfish microbiology labs. There will be a video presentation of wildlife enforcement (Fifth Estate) and both environment and wildlife enforcement officers there.

**Please note: no backpacks are allowed in the lab and children under the age of 18 must be accompanied by an adult.*
